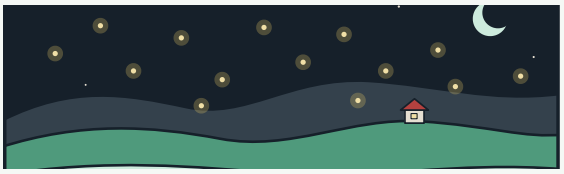
TALLOW VALLEY FOOD BANK · 2026 IMPACT REPORT

Feeding Tallow Valley, county by county

What your gifts did, what our data showed us, and the two fixes that come next.



1 THE YEAR

Your support fed thousands.

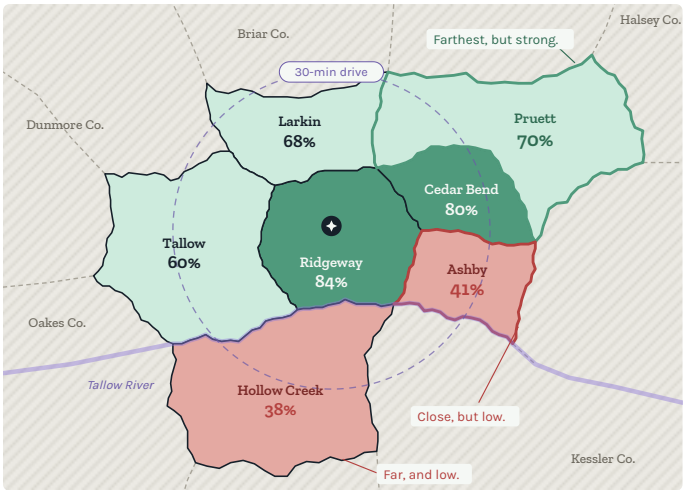
36,400
people fed

3.6M
meals shared

71%
of people facing hunger reached. But averages hide places.

2 THE PUZZLE

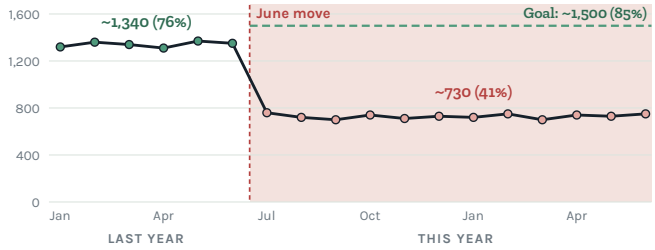
Distance doesn't explain it.



Ashby is close but low. Pruett is farthest but strong.

3 THE CLUE

Last June, Ashby's pantry moved.



People served in Ashby each month fell by almost half, and stayed there.

4 THE CAUSE

Who's there matters.

Ashby · courthouse annex
Next to probation. People don't want to be seen there.

Pruett · church hall
Run by neighbors people already know.

Hollow Creek · nowhere close
A long drive, and no trusted place nearby.

It's not how far. It's where, and who's there.

5 THE FIX

Two simple fixes. No new truck.

ASHBY

Move to Grace Fellowship hall, Mill Street
Next to the apartments and bus stop.

$12,000 a year
41% → 85% reached
~730 → ~1,500 a month

HOLLOW CREEK

Start a church pantry, like Pruett's
Then $9,000 a year to keep it running.

$28,000 first year
38% → 65% reached
~390 → ~660 a month

New truck route	$85,000
Fixes, year 1	$40,000
Fixes, year 2 on	$21,000

6 NEXT YEAR

Same map. Watch it turn green.

Ashby	41% now → 85% goal
Hollow Creek	38% now → 65% goal

YEAR 1	YEAR 2 ON	EVERY MONTH
$40,000	**$21,000**	**+1,040**
to set up both	a year to run both	more people served

Thank you for feeding Tallow Valley.

How we count: people, not households (a household here averages 2.7 people). Monthly counts are visits; most people come a few times a year.

Sample report. Tallow Valley Food Bank, its counties and all numbers are invented.
